President's Message: Anna Green

The coming year looks to be an active and significant one for the Idaho Library Association. ILA is sponsoring the Public Library Improvement Program (printed on page 10 in this issue) designed to relieve the funding crisis of the regional library systems with emphasis on collection development, continuing education, updating of physical facilities and networking. The Legislative Committee and the Library Development Committee will be involved extensively in this, as will other groups such as Quorum. The Idaho State Library Board has endorsed it, as has a key legislator on the Joint Finance and Appropriations Committee. I'm urging that all ILA members support this important bill and contact their legislators regarding it.

The ILA Book Award was proposed and adopted (see page 26). A committee for this has been appointed. The first committee was appointed as a special committee rather than a standing one, in order to allow the process to be worked through one entire time before it is added to the *ILA Handbook*. This award promises to be an important ongoing part of the association's activities.

At the time of this writing, the 1984 conference is anticipated to be a joint one with the Idaho Educational Media Association in Sun Valley on October 3-5. There has been a great deal of discussion regarding Sun Valley as a site, so be sure to read the letter concerning this matter on page 9 in this issue of the *Idaho Librarian*. The ILA Executive Board will meet with the IEMA board in December to work out the details of the conference. I met with some members of the IEMA board at its annual conference in October and talked in general about the joint conference. There don't seem to be any insurmountable difficulties, so it's hoped that one can take place.

The time of the conference (fall as opposed to spring) also has generated discussion among the membership, with many in favor of returning to a spring meeting. The executive board felt that it was committed to a fall meeting in 1984, but wants opinions and comments from as many as possible to help in making future decisions.

The Washington Library Association has approached us regarding a possible joint meeting with that group in Spokane a few years in the future when we're scheduled to meet in the northern part of the state.

Strong active members chair and serve on all the committees. I ask all of you to recruit and work for increased membership and participation in the Idaho Library Association. There are many needs—funding, continuing education and training, legislation, to name a few. This is a critical year and all of you, working together, are necessary to meet these needs.

Anna Green, Administrator, Gateway Regional Library System and Director, Portneuf District Library

Idaho Soils Atlas. Raymond J. Barker, Robert E. McDole, Glen H. Logan. Moscow, Idaho: University Press of Idaho, 1983. 148 p. LC 82-60201. $18.95 (pbk.)

The *Idaho Soils Atlas* is a superbly well-illustrated book on the soils of Idaho. The reader is left with a good conceptual feeling for the topographic setting and appearance of each soil that is discussed. The Palouse series, for example, is accurately depicted as a deep, dark-colored soil found on the rolling Palouse prairie landscape. The other soils that I am familiar with are equally well displayed and described.

The stated objectives of the atlas are to provide an aid to teach the complex nature of Idaho soils, present all prominent soil characteristics or properties and tell how these affect land use and management and provide an introduction to soil surveys. I think these objectives are met.

The format is a good approach to this subject. The print is big and easily read. The layout, with all pictures and information on two facing pages, is helpful to the reader. The photography is excellent, achieved only through great patience and careful planning to get the proper sun angle on the face of each soil pit. Preparation of the pit face is critical to this process and well done. The landscape photographs, which are invaluable to describe the setting, are equally well done.

The written material describing the genesis of the soil, soil characteristics and land use and management is presented in suitably simple language. It gets the point across in spite of a few anthropomorphisms. Keys are provided which list the soils according to prominent soil characteristics, taxonomic orders of soil, depth to layers impeding root development, natural drainage, parent material, average annual precipitation, average annual air temperature, average frost free season, elevation, type of topography and habit type. The keys will be very useful to those who wish to study soils of Idaho.

A glossary is wisely included which will help readers get through the terminology of soils. I only wish the authors had gone one step further to include in the glossary the formative elements of soil taxonomic names, their derivation and connotation. These are readily available in the references, as stated by the authors, but I think some readers who are not familiar with soil taxonomy may be curious about the names and will not have the necessary reference.

The *Idaho Soils Atlas* is well done and goes a long way toward capturing and presenting to others the knowledge of Idaho soils gained through many years of experience by the authors.

President's Message:

Anna Green

The Idaho Library Association has been active as never before in the legislative process because of the Public Library Improvement Program (PLIP) sponsored by ILA. We have been fortunate to have an audience with Governor Evans concerning it and the support of Senator Mark Ricks, resulting in a hearing before the very influential Joint Finance and Appropriations Committee (JFAC) on February 2nd. On the 8th, however, that committee moved to delay any action until the 1985 budget considerations and consider it with the Idaho State Library budget. At this writing, the budgets have not been considered and we are keeping in contact with legislators on both JFAC and the House Revenue and Taxation Committee. Our first plan for PLIP, following several meetings with Senator Ricks, has been to ask for the funding from 1984 surplus and, if approved, have a bill written with permission to carry those funds over into the 1985 year. Now, of course, if PLIP succeeds the funding will come from the 1985 monies.

A very fruitful executive board meeting was held December 2nd and after that a meeting with some IEMA officers during which a tentative program for the 1984 conference was produced.

A concerted membership drive is being undertaken. The membership has been increasing and we want that trend to continue.

Until this year, I have been unaware of how difficult it is to find persons to devote their time to serving and working on the various committees and divisions so vital to a strong, vigorous organization. True, it's a sacrifice of valuable time that is all too short because of other necessary duties and activities, but I urge you to become involved in YOUR association. It can be, and often is, hectic, but it's also very rewarding. The amount of time and effort given by the persons involved the past few months has been overwhelming, but there's always more to do. So think twice before you say "no" to a nomination or request. The Idaho Library Association needs you, your expertise and your willingness to work.

Anna Green
Administrator, Gateway Regional Library System and Director, Portneuf District Library and President, ILA

Public Library Statistics: 1983

The following statistical reports for Idaho public and district libraries for fiscal year 1983 were compiled by the Idaho State Library. Questions concerning the statistics should be addressed to *Rich Wilson, Idaho State Library, 325 W. State Street, Boise, Idaho 83702.*

Reports missing: Avery, Blackfoot School/Community, Dubois, Grace, Grand View, Ketchum, Stanley, Weippe.

Guidelines For Authors

The editors of the *Idaho Librarian* welcome letters and manuscripts. Please follow these guidelines when preparing your submissions.

1. Letters and manuscripts should be typed and **double-spaced** on 8½" x 11" uncoated paper (no erasable bond, no clay-coated photocopy paper). Please type on one side only.

2. On the first page, start typing about ⅓ to ½ way down the page. This gives us room to include our instructions to the printer at the beginning of the article.

3. Use wide margins; 1¼" to 1½" is not too wide.

4. Please type your name, job title, Idaho Library Association affiliation, phone number, and address on the last page of your manuscript.

5. Photographs must be black and white on glossy paper.

6. *The Chicago Manual of Style,* 13th edition, is our style book. Please consult it if you have any questions about the mechanics of writing or preparing your manuscript.

7. Send your letters and manuscripts to the editor at Moscow.

Thank you.

Evaluation continued from page 43

books left technical processing; individual slips would be checked at random at any given processing point within the department. The evaluation process was to continue for eight to ten weeks to determine the points where books were consistently held up.

Summary

All libraries need to plan for change if they are to continue to meet their patrons' needs for information. Planning is an ongoing process of which evaluation is a necessary part. Evaluation of past and current activities should set the course for future plans, which will require their own evaluation.

Whether a library is writing a grant proposal, planning a change in circulation procedures, reorganizing a department or trying to determine user satisfaction with reference service, evaluation is necessary to answer the question "How well did it work?"

Ann Joslin works as Library Development Consultant at the Idaho State Library.
